This month's reminder: no branches, weeds, twine, ropes and rubbish in the poo pile! Manure & hay only.

GOT YER WELLIES?

It's been a wet end to the month! Grazing paddocks are now closed. Please keep the following wet season rules in mind:

- Arenas & Round yards are closed when there is standing water. Please use your best judgement.
- Grazing paddocks closed until further notice from the committee
- Be mindful of the trenches from the recent plumbing upgrade as they're sinking! Please back-fill when you can and ask for help with the Kubota if needed once it dries up a little.
- Please only drive through the grounds if you need to as it's sloppy.
- Exercising your horse: Walking only throughout the grounds except in arenas, roundyards and the track around campdraft arena. Absolutely no horses any time in the spectator area around the main arena.
- As yards begin to flood please check with your neighbours if they need help. Please feel free to move your horse to dryer water yards/campdraft holding yards or a friendly neighbours yard.

HORSE & RIDER.

PLEASE GET INTO THE HABIT OF
ALWAYS CLOSING AN OPEN GATE AND
PLEASE EVERYONE TELL THE KIDS!

An Exercise in Straitness & Rhythm

How to Ride:

Through the channel without passing over any poles. Then try making a transition in the middle of the channel.

Diagonally across the "3 sided box" at the canter.

Through the "3 sided box" try using the single straight pole to a downward/upward gait transition.

Over all three poles in trot keep the rhythm: 1 trot stride space followed by 2 trot stride spaces.

Over all three poles in trot, then gait transition between poles 2&3.
